Run Tingz Recordings, Bristol's latest offering to the international music stage...

Stop the press as Run Tingz Recordings prepares to introduce a star player into the new era of UK Dance music, Bristol style... With a strong foothold in the thriving city of music and culture, the Run Tingz crew are set to make waves across the UK and much further afield in the once again rising Jungle scene.

The Jungle and Drum n Bass scene in Bristol is thriving more than ever and with an outstanding array of events and promoters the city has been crying out for a new home grown label to represent it for some time.

Following the landmark success of signing an international distribution deal with the mighty Nu-Urban music, the boys from Bristol are set to unleash their style of Reggae influenced Jungle and Drum n Bass on to the world. Nu-Urban's reach stretches far and wide and with links across the water in America and as far as Japan, their sound is set to go global.

2010 see's the eagerly anticipated debut release on Run Tingz Recordings. The Jungle Champion EP is a high paced Jungle anthem with tight drum programming and bass lines that will move any dance floor. With an original ragga vocal from Run Tingz very own Blackout JA it is set to be an instant hit.

The Jungle Champion EP features 2 killa remixes and a set of DJ Toolz making this record a must have addition to any serious Jungle or Drum n Bass DJ's record collection.

Quote from Nu-Urban Music: *"Bristol's original Junclist crew, Run Tingz Recordings, drop their next slice of Ragga Jungle mayhem on their self titled imprint. Produced by the mighty Debaser and featuring the vocals of gravel-throated MC Blackout Ja this is a hard rolling slice of dancefloor Jungle over the classic Real Rock riddim that will destroy any dancefloor that it is lucky enough to have it dropped on. On the flip G.Tactix and LXP are on the remix duties and turn out a wighty Amen smasher mix which is more than a worthy counterpart to the original on the flip. But what is especially note-worthy of this release is the 3rd track entitled 'Selecta Toolz' - a short bonus cut that includes a whole host of Dancehall and Soundclash samples, FX, lazars and horns for all you selectors and producers out there looking for the perfect dj tool for clashing or sampling. Absolutely wicked!"*

In addition to this, Run Tingz Recordings 002 is entering the final stages of production. The release features licensed remixes of YT's 2009 reggae anthem Born Inna Babylon and with tracks from the infamous Jacky Murda (Chopstick Dubplate) and Run Tingz very own G.Tactix and LXP, it is already turning heads and tearing up dance floors around the world.

Keeping true to their underground roots, Run Tingz is pledging its support to the UK's vinyl industry and releases on Run Tingz will be available on vinyl up to 6 weeks in advance their digital releases and feature ltd edition sleeves, artwork and DJ Toolz. With the vinyl industry in steady decline the crew urges their fans to follow by example, show their support to their local records shops and buy the releases on 12".

Quote from Ed Garrett (Label Manager): *"The underground dance music scene was built on vinyl and with the increase in digital shops and illegal downloads we are at risk of loosing a part of the culture that is very dear to us all".*

Hold tight in your area... Run Tingz is about to go off!
